ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

NEW RANGE ROVER EVOQUE

New Range Rover Evoque's dramatic, confident and sophisticated design is in complete harmony with the simplicity of its intuitive technologies and supreme levels of functionality. Sophistication and space are abundantly apparent in its beautifully appointed interior, while off-road capability adds greatly to the composure of your drive. New Range Rover Evoque. Time to make a statement.

INTRODUCTION

INTRODUCING THE NEW RANGE ROVER EVOQUE

"When Range Rover Evoque made its debut back in 2011, it transformed the world of compact SUVs. New Range Rover Evoque is set to continue that remarkable journey. Its confident pared-back exterior and modern clean interior effortlessly unite to create a truly outstanding vehicle. One that will always get admiring looks."

Gerry McGovern
Chief Design Officer, Land Rover

DESIGN

New Range Rover Evoque embraces the continuation of our modernist design philosophy, creating a bold evolution. With its distinctive coupé-like silhouette, characterful rising belt line and unique personality, Range Rover Evoque is a compelling successor to the vehicle that captured hearts all over the world. Detail design highlights include flush deployable door handles, 45.72 cm (18) wheels and Premium LED headlights with signature DRL and Animated Directional Indicators, bringing a higher level of sophistication and modernity. [See page 8 for details.](#)

REFINEMENT

Exemplary levels of refinement help to create new Range Rover Evoque. A range of powertrain options and a 9-speed Automatic Transmission provide an efficient delivery of power regardless of the terrain or weather conditions. The perfect balance between effortless capability and on-road refinement make Range Rover Evoque a joy to drive. [See pages 12 and 20 for details.](#)

CAPABILITY

The vehicle's on and off-road handling combined with all-weather capability guarantee it delivers a confident and assured drive, no matter what the conditions. Departure angle and wading depth, Terrain Response 2 and the Sports Command Driving position enhance those capabilities. The vehicle's All Wheel Drive (AWD) system helps to improve traction and off-road capability. [See page 14 for details.](#)

INTERIOR ENVIRONMENT

Our modernist design philosophy continues throughout this roomy, luxurious interior. Uncluttered surfaces, reductive line work and carefully curated premium materials come together to create a sophisticated and highly desirable cabin. Improved interior packaging achieves optimum ergonomics to give greater comfort and control, while Touch Pro Duo and capacitive switches help enhance this environment. Range Rover Evoque features innovative technology, such as Smart Settings, which recalls your personal vehicle preferences and automatically configures your Range Rover Evoque as you left it. Other features include Cabin Air Ionisation to improve air quality and remove allergens. [See page 11 for details.](#)

TECHNOLOGY

New Range Rover Evoque uses some of our most intuitive and innovative technologies to date. Features such as Touch Pro Duo, a 31.24 cm (12.3) Interactive Driver Display, Head-up Display, a Meridian™ Sound System, Click and Go integrated rear seat entertainment and Smartphone Pack all add greatly to your enjoyment of the vehicle. The ClearSight interior rear view mirror* provides an unobstructed rear view regardless of objects that would normally disrupt it. Just one in a suite of driver assistance features making every journey safer and more relaxing. [See page 23 for details.](#)

*Customers who wear varifocal or bifocal lenses may have issues adjusting to the mirror's digital mode. The normal mirror mode, however, can be used at any time.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.
Meridian is a registered trademark of Meridian Audio Ltd.

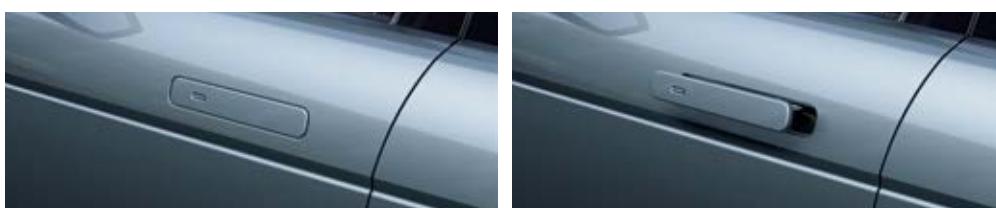

Features and their availability may differ by vehicle specification and market. For full feature and option availability please refer to the Specification Sheet or visit your local Land Rover Retailer.

EXTERIOR

Range Rover Evoque offers a new level of refinement in a vehicle that is so instantly recognisable. Outstanding proportions deliver a dramatic silhouette and stance, truly conveying Range Rover Evoque's distinctive appearance. The characterful roofline and rising waist are amplified by a strong dynamic attitude, combined with a pronounced shoulder and powerful wheel arches.

Fewer lines, cleaner surfaces and a high level of precision heighten the modernity and sophistication of this emotionally engaging design. Precise details in the front and rear graphics, with slimmer signature LED headlights adding to the sleek and contemporary appearance. New Range Rover Evoque - bold, compelling and emotionally engaging - redefines the compact luxury SUV.

INTERIOR

A dynamic interpretation of Range Rover DNA creates a sporting, cosseting interior. Our philosophy of reduction is amplified to remove visual clutter and embrace the latest technology. The next generation Range Rover Evoque interior pays homage to the original while firmly looking forward; simple, elegant lines and sophisticated surfaces work in harmony with contemporary materials to ensure a tailored and compelling environment.

Grained leather furnishes our interior. Details including precise stitching on the facia add to the sophisticated surfaces, whilst intuitive technologies ensure the interior is clutter and fuss free.

The Touch Pro Duo system with its upper and lower Touchscreens enhances the cabin's clean look. The fixed panoramic roof enables you to fill the cabin with light. Configurable Ambient Interior Lighting enhances the ambience, added to which, the interior space has been optimised for the stowage of small items such as a smartphone, tablet or water bottle.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

Features and their availability may differ by vehicle specification and market. Please refer to the Specification Sheet for details or contact your local Land Rover Retailer for more information.

Interiors shown are First Edition with optional Cloud Kvadrat Premium textile and Dinamica® suedecloth seats with Cloud/Ebony interior.

PERFORMANCE AND CAPABILITY

ENGINES

From power and sheer driving pleasure to fuel economy and refinement, there is a range of Ingenium engines available for Range Rover Evoque and each has been optimised for specific attributes to cater for all needs. Petrol engine is equipped with Stop/Start technology and smart regenerative charging; this feature harvests kinetic energy from deceleration to charge the battery for maximum economy, especially during urban driving. For engine availability see page 54.

TRANSMISSION

To ensure that you are always in the optimum gear, maximising fuel efficiency and acceleration, Range Rover Evoque's 9-speed Automatic Transmission has nine closely spaced ratios. Gear changes are almost imperceptible and shift schedules intelligently adapt to your driving style.

EVERYDAY CAPABILITY

There are times when the inherent capability of a Range Rover Evoque truly comes into its own. Like now. Driving downtown, a thick blanket of snow has brought the city to a standstill. With the roads icy, you select All Terrain Progress Control (ATPC). This makes the journey to your favourite breakfast spot effortless. The coffee alone is worth the trip.

A pop-up restaurant has just opened on the outskirts of the city. It's about an hour's drive away but you've heard that the food is outstanding. The landscape gets wild, but Terrain Response 2 means that you barely notice. The meal is a memory in itself.

EXTRAORDINARY CAPABILITY

From Lone Pine, California, to the Ice Academy in Sweden, Range Rover Evoque's capability will take you anywhere. Class-leading technologies such as All Wheel Drive (AWD) ensure you tackle off-road conditions with the utmost confidence. Continue reading to discover our full range of features.

Features and their availability may differ by vehicle specification and market. Please refer to the Specification Sheet for details or contact your local Land Rover Retailer for more information.

ALL WHEEL DRIVE

Range Rover Evoque features All Wheel Drive (AWD) to ensure you always enjoy a confident drive both on and off-road. The system intelligently controls torque distribution between the front and rear axle via an electronically controlled multi-plate clutch. Drive torque is distributed across the front and rear axle to fully utilise the available traction from all four tyres. On slippery surfaces, such as grass and snow, torque can be balanced between the front and rear wheels to maximise traction. In extreme conditions where the front or rear wheels lose traction, up to 100 percent of engine torque can be distributed to the opposite axle for optimum grip. The AWD system combines with Electronic Traction Control (ETC) to deliver a sure-footed driving experience in even the most challenging situations.

TERRAIN RESPONSE 2

Terrain Response 2 takes the capabilities of the award-winning system to a new level. This features an automatic setting which monitors the current driving conditions and systematically selects the most suitable terrain setting. You can manually override the system should you wish.

General Driving

Mud & Ruts

Grass, Gravel, Snow

Sand

Features and their availability may differ by vehicle specification and market. Please refer to the Specification Sheet for details or contact your local Land Rover Retailer for more information.

ALL TERRAIN PROGRESS CONTROL (ATPC)

All Terrain Progress Control (ATPC) is a state-of-the-art system that enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces, including: mud, wet grass, ice, snow and dirt roads. Operating like a conventional cruise control system, it functions between 1.8 km/h and 30 km/h, enabling you to maintain full concentration on the road ahead.

HILL DESCENT CONTROL

Land Rover's patented Hill Descent Control (HDC) assists the driver with the controlled descents of difficult slopes. It does so by maintaining a constant speed and applying braking separately to each wheel. Hill Launch Assist ensures the vehicle doesn't roll backwards as it pulls away on an incline. The vehicle also utilises Gradient Release Control, which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

LOW TRACTION LAUNCH

Providing you with optimum torque control when you move off from a standstill, Low Traction Launch enhances capability in slippery conditions like wet grass, snow and ice. The system remains active until the car reaches 30 km/h - then Range Rover Evoque seamlessly blends back into the selected driver mode.

— UNDERSTEER DETECTED

— FULL TORQUE TO OUTER WHEELS

● UNDERSTEER DETECTED

● FULL TORQUE TO OUTER WHEELS

REFINED PERFORMANCE

TORQUE VECTORIZATION BY BRAKING

Torque Vectoring by Braking delivers controlled, responsive cornering by reducing near-limit understeer through controlled braking of the inside wheels.

DRIVELINE DISCONNECT

Range Rover Evoque's All Wheel Drive (AWD) system has Driveline Disconnect technology. This allows the driveline to operate in Front Wheel Drive mode when cruising to reduce drag losses and maximise fuel efficiency. The driveline reconnects with an impressive response time when AWD is required to ensure Range Rover Evoque's traction and handling are not compromised.

To celebrate the launch of new Range Rover Evoque, we have created a limited edition watch with Zenith®. Featuring a 41 mm titanium case, elite movement, silicon pallets and lever, the DEFY CLASSIC has been inspired by the vehicle's dramatic alloy wheels, with a diamond-cut pattern on the strap. Only 200 of this most singular watch will ever be produced. To discover more, please visit www.zenith-watches.com

INFOTAINMENT

Delivering a wealth of information and entertainment, every Range Rover Evoque is equipped with our InControl infotainment system, Touch Pro. It features intuitive and advanced integrated technologies to ensure everyone can make the most of their journey. Technologies such as the Voice Recognition System understand clearly spoken instructions, so you can concentrate on the road ahead without any distractions.

TOUCH PRO

The standard 25.4 cm (10) Touchscreen at the heart of the centre console supports tap, swipe and pinch-to-zoom gestures and delivers our richest ever audio-visual entertainment. To enhance the in-car experience, Touch Pro offers customisable homescreens and fast response times as well as voice control. Multi-tasking is also made easy thanks to the Interactive Side Panel.

TOUCH PRO DUO

The 25.4 cm (10) dual high-definition Touchscreens allow the user to view required information whilst simultaneously being able to interact with additional features, for increased flexibility and efficiency of use. For instance, you can use the navigation system in the upper screen whilst playing media on the lower screen. Direct access to cabin and seat temperature controls are also available via the multi-function dynamic dials.

INTERACTIVE DRIVER DISPLAY

Range Rover Evoque ensures you're always entertained, informed and connected. It features an optional 31.24 cm (12.3) high-definition Interactive Driver Display that can receive and project a vast amount of driving information, entertainment and active safety data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth-moving, pin-sharp graphics.

HEAD-UP DISPLAY

To help reduce distraction or the need for you to take your eyes off the road, Head-up Display presents key vehicle data such as your speed, gear position and navigation directions on the windscreen. It features crystal clear full-colour graphics in high resolution, enabling you to see all driver inputs and information with ease. It can display important information from the Touchscreen including phone information. The feature can be turned on and off dependent on driver preference.

All in-car features should be used only when safe to do so. Drivers must ensure they are in full control of the vehicle at all time.

Features and their availability may differ by vehicle specification and market. Please refer to the Specification Sheet for details or contact your local Land Rover Retailer for more information.

Interior shown is R-Dynamic SE with optional Cloud Kvadrat Premium textile and Dinamica® suedecloth seats with Cloud/Ebony interior.

CONNECTIVITY

Land Rover's suite of standard connectivity features ensures that you and your vehicle are linked seamlessly and securely to the outside world. The standard Remote App enables you to interact with the vehicle remotely. Standard Smartphone Pack allows vehicle optimised apps on your smartphone to be controlled through the Touchscreen, including your contacts, calendar and music player. Standard Navigation Pro and Connect Pro make sure the Land Rover experience is more enjoyable than ever.

STANDARD FEATURES

REMOTE APP*

The InControl Remote App provides information on your vehicle and enables you to interact with it even when you are not with your vehicle. Compatible with most smartphones and smartwatches, this service includes:

Remote Lock/Unlock - Lock or unlock your doors remotely with the click of a button. Simply press the 'lock' button on the Vehicle Security screen of the Remote smartphone app to single lock the doors, arm the alarm, fold in the door mirrors (if power fold door mirrors are fitted) and close the windows. Press the 'unlock' button to unfold the door mirrors, turn on the dipped headlights and cause the hazard lights to flash twice.

Remote Climate - Prepare your Range Rover Evoque in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.

Beep/Flash - This feature turns on your Land Rover's hazard lights and dipped headlights, and sounds an audible alert to help you locate your vehicle in a crowded car park.

Journey Tracking - This opt-in feature can automatically record your journey history including your route and mileage statistics. This information can be exported by email to use for expense reporting and can be exported to a spreadsheet.

Vehicle Status Check - Check current fuel level and range, and the status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

*Remote contains subscription services that can be extended after the initial term advised by your Land Rover Retailer. InControl features, options and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

Android™ is a trademark of Google Inc. Apple Watch® and Apple CarPlay® are registered trademarks of Apple Inc., registered in the US and other countries.

STANDARD FEATURES

SMARTPHONE PACK

By screen sharing with Range Rover Evoque's InControl infotainment system, the Smartphone Pack helps you stay connected to your smartphone even while in the car. Featuring InControl Apps technology, this Pack allows vehicle-optimised apps on your Android™ or Apple™ smartphone to be controlled through the Touchscreen, including your contacts, calendar and music player, via a USB cable.

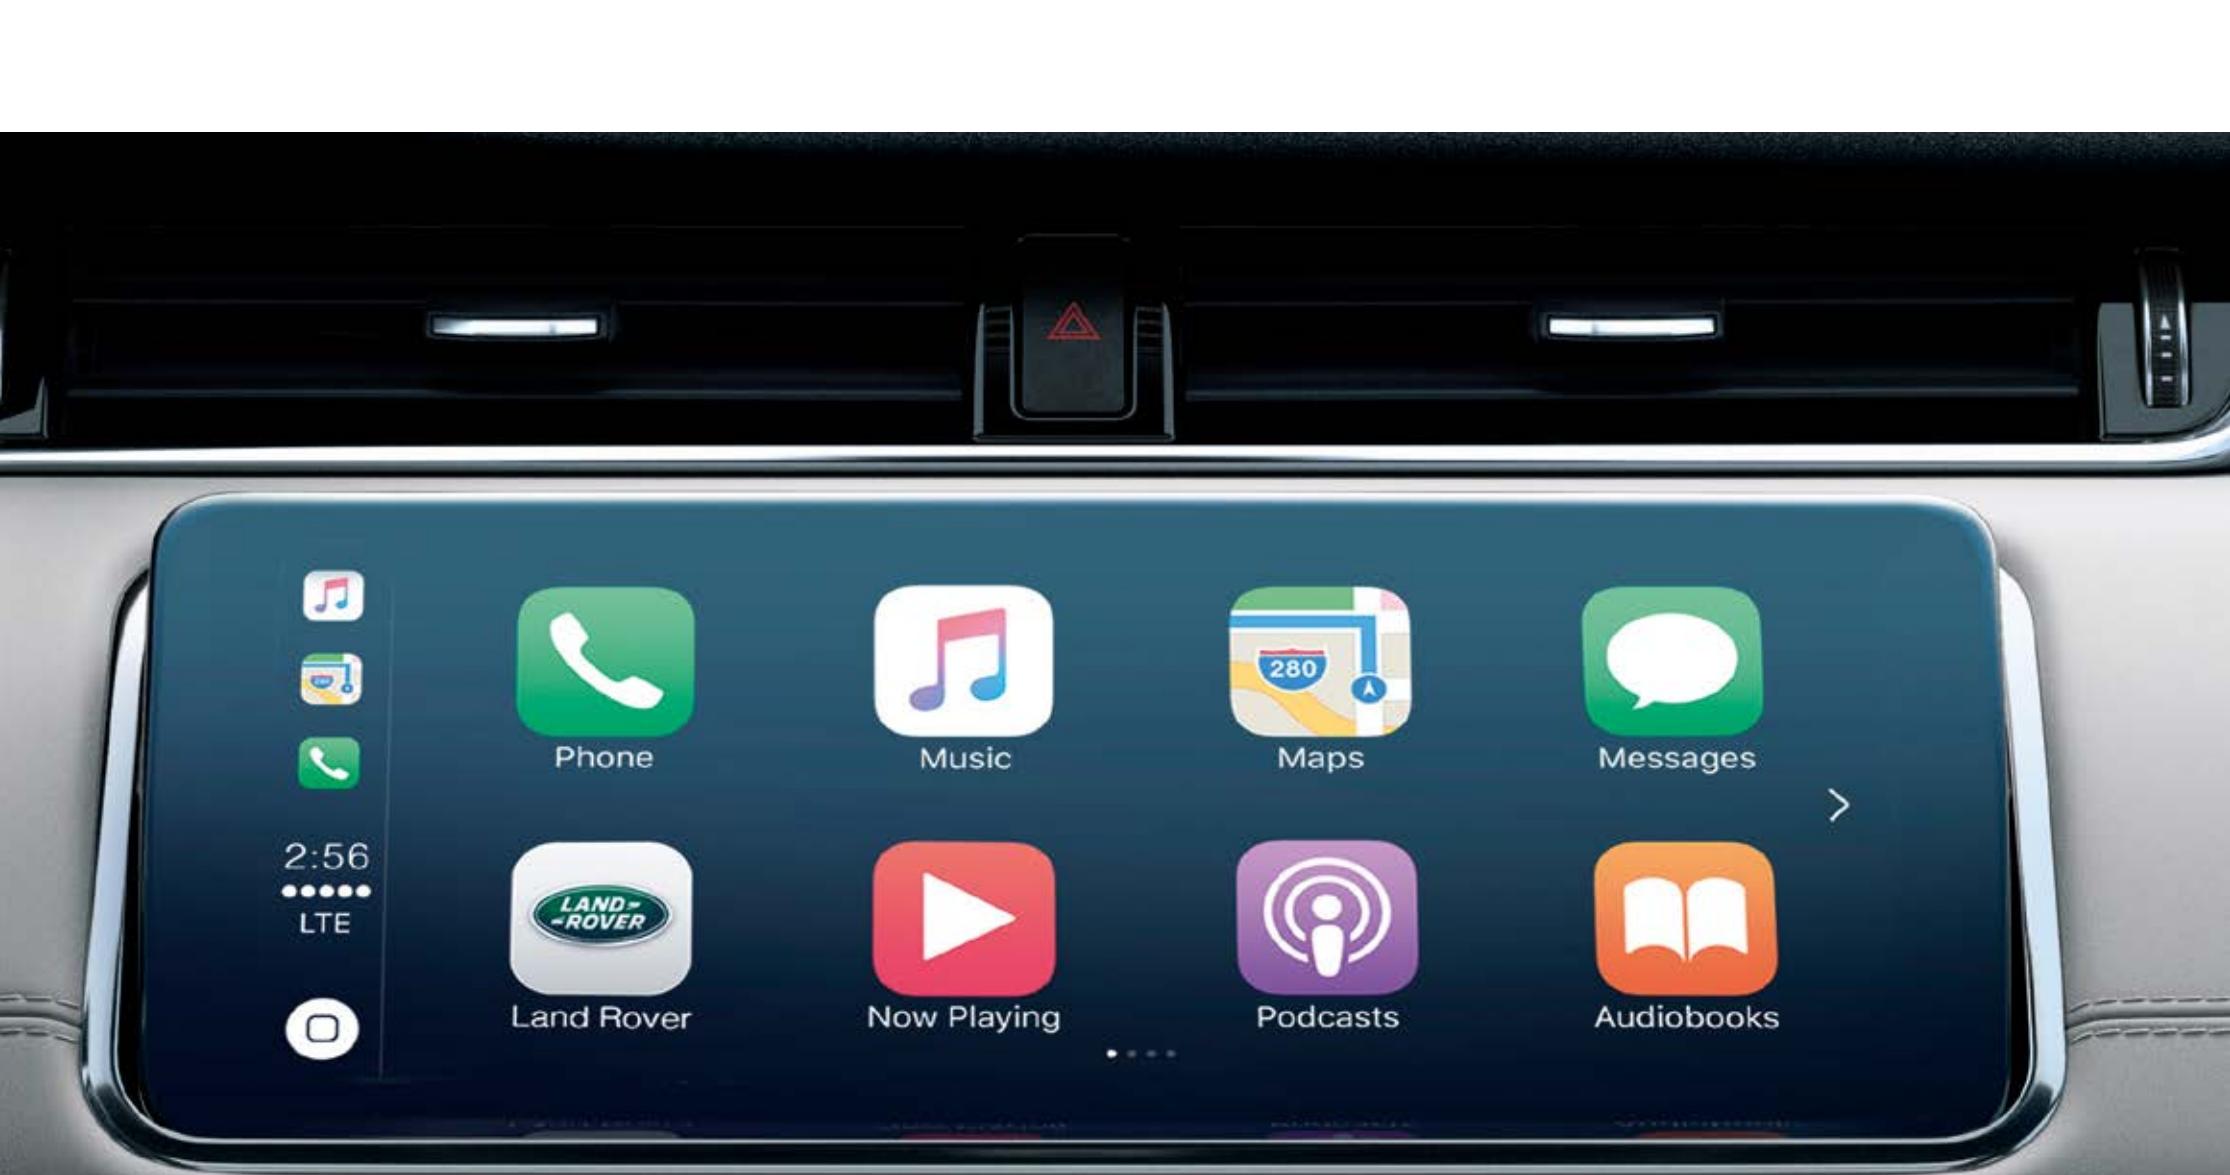

InControl Apps present a vehicle-optimised, interactive set of apps that enable media streaming, cloud and location-based services and more – via the USB port.

Android Auto™ was designed with safety in mind. With a simple and intuitive interface, it is designed to minimise distraction so that you can stay focused on the road. Simply connect your Android smartphone via a USB and control compatible apps on the in-car Touchscreen.

Apple CarPlay® is also designed for increased safety, enabling the use of apps while allowing the driver to concentrate on the road ahead. Connect your Apple smartphone to your car to use compatible apps such as maps, messages and music through the Touchscreen.

Android™ is a trademark of Google Inc. Apple Watch® and Apple CarPlay® are registered trademarks of Apple Inc., registered in the US and other countries.
InControl features, options and their availability remain market dependent – check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

STANDARD FEATURES

NAVIGATION PRO

Range Rover Evoque's navigation system, Navigation Pro, allows you to save your favourite places, use tap, swipe and pinch-to-zoom gestures for simple map exploration and display a choice of either 2D or 3D crystal clear map graphics. You can also keep maps up-to-date with the latest release of Map Care.

CONNECT PRO

Connect Pro consists of 4G Wi-Fi Hotspot, Pro Services and Smart Settings. It's designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey whilst remaining connected to the world.

4G Wi-Fi Hotspot

Provides in-car access to the Internet, enabling up to eight wireless devices to be used simultaneously in the car. Passengers can connect through the vehicle's wireless network to surf, work, update social media and stay entertained throughout the journey.

Pro Services*

- **Real Time Traffic Information:** Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- **One-box Search:** Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration, as well as online travel reviews of the local area.
- **Online Routing:** While you're on your way to a destination, the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.
- **Planning Routes and Door-to-Door Routing:** Before setting off, use the Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. When arriving at a car park, it isn't always clear how to get to your final destination. As you exit the vehicle, the Navigation Pro system will automatically hand over to the Route Planner app on your smartphone. You can then access directions on how to get there via public transport or on foot. You are always connected – every step of the way, right to the door.
- **Commute Mode:** Allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.
- **Parking Service:** As you approach your destination, you can see where parking is available. Simply tap on your preferred car park and the navigation system updates to direct you to it.

Smart Settings

Designed to deliver a truly personalised experience and reduce driver distraction, Smart Settings combines a number of features.

- **Profile:** The system automatically identifies each driver using their key and phone, and can remember a number of settings saved to their profile. It can select your preferred seat and mirror positions, as well as which media to play at the start of your journey.
- **Learning:** With the 'Learning' function, Smart Settings can also learn and automate your preferences, based on your habits, past routines and the current temperature - including whether you like a warm steering wheel or heated seats on a morning commute.

*Online functionality and Wi-Fi connectivity is dependent on the installation of a micro SIM with suitable data contract. 4G Wi-Fi Hotspot and Pro Services contain subscription services that can be extended after the initial term advised by your Land Rover Retailer.

InControl features, options and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

AUDIO

A vehicle's cabin is the ideal place within which to experience your personal choice of music and Range Rover Evoque has two different audio systems to bring your music to life:

10 SPEAKERS

SUBWOOFER

Audio system shown above is the Meridian™ Sound System (380 W)

SOUND SYSTEM

Outstanding acoustic range through six speakers.

MERIDIAN™ SOUND SYSTEM (380 W)

Great definition, crystal clear highs and full, deep bass - delivered through the careful arrangement of 10 door-mounted speakers and a dual-channel subwoofer.

MERIDIAN™

Formed in 1977 in Cambridgeshire, England, Land Rover's audio partner Meridian has pioneered many firsts including active speakers and the world's first digital surround sound processor. Meridian's audio technology input has helped ensure that Range Rover Evoque is the most superb space within which to experience sound. Meridian Cabin Correction technology was utilised to analyse cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds. The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

DIGITAL SIGNAL PROCESSING

Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

MERIDIAN CABIN CORRECTION

The advanced algorithm of Meridian's Cabin Correction tailors the sound experience to the precise acoustics of Range Rover Evoque's interior.

MERIDIAN DIGITAL DITHER SHAPING

To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

TRIFIELD

Exclusive to Meridian, Trifield blends the centre and surround channels seamlessly with the left and right, delivering a consistent, concert-like experience for all occupants.

DRIVER ASSISTANCE

SAFER AND EASIER

From negotiating city traffic or the motorway, to providing additional safety for you and your passengers, there's a wealth of innovative technologies available. You'll find every single feature has been designed and engineered to heighten your enjoyment of the vehicle.

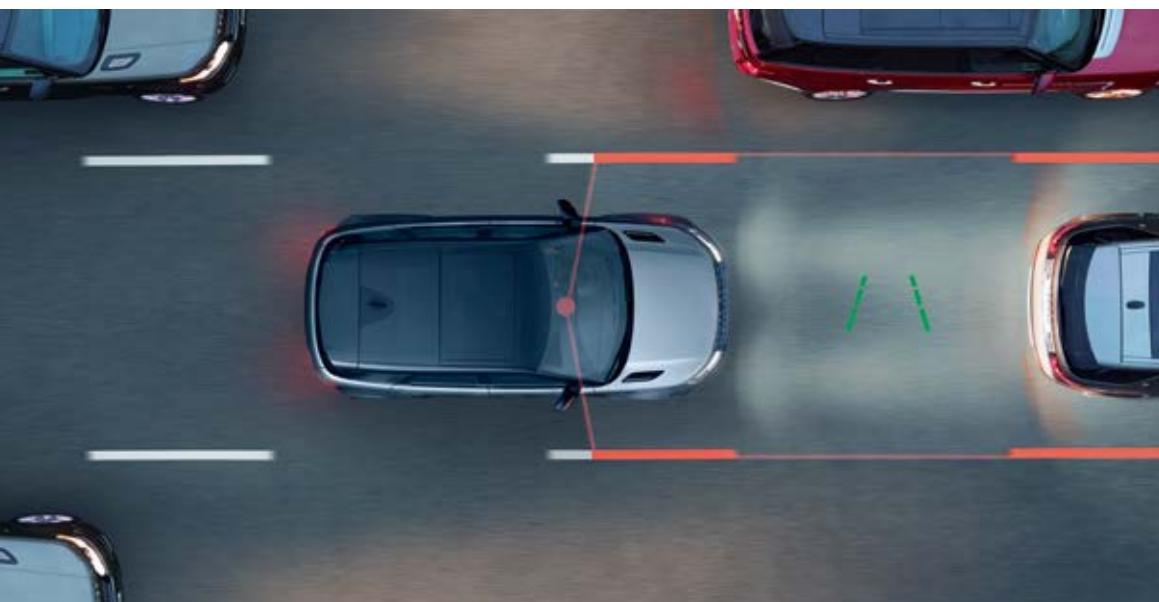

STANDARD FEATURES

Rear Camera provides improved visibility when reversing. Static lines representing the vehicle's outer perimeter and predicted path are superimposed on the rear view image displayed on your Touchscreen.

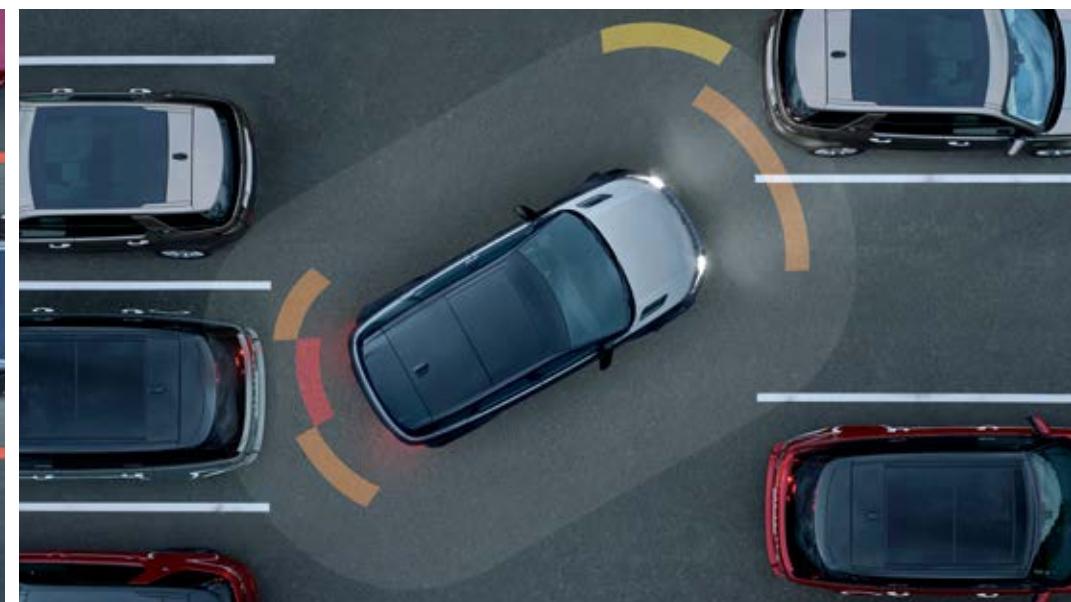

Cruise Control and Speed Limiter allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal, helping to reduce driver fatigue. The Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired.

Driver Condition Monitor detects if you're starting to feel drowsy and gives you an early warning when you need to take a break.

Lane Keep Assist detects when the vehicle is unintentionally drifting out of the lane, and applies a corrective torque to the steering wheel, encouraging you to guide your vehicle back.

Lane Keep Assist

Front and Rear Parking Aid

STANDARD FEATURES

¹Only available on R-Dynamic S and First Edition models. ²Customers who wear varifocal or bifocal lenses may have issues adjusting to the mirror's digital mode. The normal mirror mode, however, can be used at any time. Features and their availability may differ by vehicle specification and market. Please refer to the Specification Sheet for details or contact your nearest Land Rover Retailer for more information.

CLEARSIGHT INTERIOR REAR VIEW MIRROR¹

A first for Land Rover, this innovative new technology provides an unobstructed view of the road behind you, regardless of objects that would normally disrupt it through the standard rear view mirror – say, for instance, passengers or large rear loads. Featuring an additional camera placed in the antenna roof pod at the rear of the vehicle, a video feed is displayed on an embedded digital display² in the mirror, providing a much wider and therefore improved field of view. You can use this feature in normal or display mode, the latter showing the video feed. A switch located under the mirror unit makes changing between modes simple.

ClearSight interior rear view mirror deactivated (above) and activated (below)

STANDARD PACK

Park Pack is available, featuring a range of technologies to enhance the driving experience. It assists you to park and manoeuvre safely and more easily in and out of tight spaces and into traffic that is obscured by buildings or other vehicles.

Park Assist

PARK PACK

Park Assist makes parallel and bay parking easier by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle's speed, whilst graphics and notifications guide you through the manoeuvres. Park Assist can also steer you out of a parallel parking space, taking all of the stress out of parking.

Rear Traffic Monitor

Rear Traffic Monitor is particularly useful when reversing out of a parking bay. The system warns you of vehicles, pedestrians or other hazards, approaching from either side of your vehicle. It will alert you with both audible and visual warnings so you know what's behind you, even when the view is obstructed.

360° Parking Aid

360° Parking Aid gives you complete confidence when manoeuvring in tight spaces. Sensors located around the vehicle are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicate how close you are to obstacles.

Clear Exit Monitor helps passengers exit the vehicle safely by providing a warning of approaching hazards, such as passing vehicles and cyclists. When a passenger begins to unlatch their door, a small warning light will illuminate if an oncoming hazard is detected.

EFFICIENT TECHNOLOGIES

SUSTAINABLE BY DESIGN

Land Rover is committed to producing vehicles that use more sustainable materials, produce less waste and use fewer natural resources as part of our approach to sustainability excellence. Range Rover Evoque's development process has included a full life cycle assessment and has been designed to be 85 percent recyclable/re-usable and 95 percent recoverable at the end of the vehicle's life.

ADVANCED AERODYNAMICS

The streamlined design of our latest vehicle has been carefully optimised to make Range Rover Evoque the most aerodynamic Range Rover ever.

Features and their availability may differ by vehicle specification and market. Please refer to the Specification Sheet for details or contact your local Land Rover Retailer for more information.

ISO FIX POINTS

AIRBAGS

SAFETY

SAFE AND SECURE

Designed for optimum safety, Range Rover Evoque has been engineered to include a wealth of standard features not only to help to protect you and your passengers, but to actively help prevent accidents from happening.

Range Rover Evoque's elevated Sports Command Driving Position provides enhanced visibility in all conditions. You can see more of the road and be easily seen by other road users, providing an enhanced feeling of safety and confidence. All Wheel Drive (AWD) helps you stay firmly planted on the road whatever the weather or environmental conditions.

The safety of Range Rover Evoque is further enhanced by the latest technologies included as standard:

Dynamic Stability Control (DSC) monitors Range Rover Evoque's dynamic behaviour, intervening to maximise vehicle stability. DSC reduces engine torque and applies braking to the appropriate wheels to correct the vehicle's direction of travel by counteracting understeer or oversteer.

Anti-lock Braking System (ABS) allows the vehicle to maintain traction with the road surface whilst braking and prevents wheels from locking - thereby retaining the vehicle's ability to steer. The system helps to shorten the braking distance.

Electronic Brake-force Distribution (EBD) automatically varies the braking force to each axle in order to minimise stopping distance, while still maintaining stability and the vehicle's ability to steer.

Electronic Traction Control (ETC) optimises traction and stability by controlling wheel spin. The ETC system reduces torque to the spinning wheel, then applies braking to the wheel, if required.

Cornering Brake Control (CBC) automatically varies the braking force to each wheel when the vehicle's brakes are applied around a corner and the limit of grip is reached. The system will prevent the vehicle's wheels from locking up and skidding in this event through varying the braking force applied to each wheel.

Roll Stability Control (RSC) is integrated with DSC to reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover. When risk is detected, braking is applied to the outside front wheel to reduce forces which contribute to rollover.

Emergency Brake Assist understands when you apply the brakes quickly but without the necessary force to maximise stopping performance. It therefore boosts the brake pressure through the ABS pump to ensure you stop in time. To help reduce the risk of a collision, the Emergency Stop Signal system automatically activates the hazard warning lights during emergency braking.

ISOFIX and Airbags improve safety even further, two ISOFIX points for baby/child seat restraints are fitted on each side of the rear seats and a comprehensive system of six airbags - including driver, passenger, side curtain and thorax airbags - are fitted as standard to protect occupants.

LAND ROVER OPTIMISED ASSISTANCE*

You can make a direct call to the Land Rover Assistance team by pressing the button on the overhead console or from the Assistance screen within the InControl Remote smartphone app.

SOS EMERGENCY CALL*

In a more serious incident, SOS Emergency Call will automatically connect you to the emergency response team who will notify the emergency services to your location. For peace of mind, this service is provided for the first ten years from date of registration.

*Land Rover Optimised Assistance and SOS Emergency Call are subscription services that can be extended after the initial term advised by your Land Rover Retailer.

InControl features, options and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

Features and their availability may differ by vehicle specification and market. Please refer to the Specification Sheet for details or contact your local Land Rover Retailer for more information.

BRIGHTER LIGHTS, SAFER NIGHT-TIME DRIVING

Range Rover Evoque features all-round exterior Premium LED lighting as standard. LED lights are designed to last the lifetime of the vehicle and are more fuel-efficient as they use less energy. The quality of light produced is closer to daylight conditions, so driving at night becomes less tiring.

Premium LED headlights feature front and rear Animated Directional Indicators, and the distinct exterior graphic of the signature Daytime Running Lights (DRL).

MATRIX LED HEADLIGHTS

The Matrix LED headlights with signature DRL enable an Adaptive Driving Beam. By splitting the main beam into vertical strips, the adaptive beam maximises the number of high beam sections for ultimate visibility, while casting a shadow over oncoming traffic to help to prevent dazzling. The adaptive beam is also able to optimise the light distribution to suit the driving conditions of town, country, motorway or bad weather. Matrix LED headlights include front and rear Animated Directional Indicators, which reduce the time it takes other road users to recognise the intended direction of travel.

Features and their availability may differ by vehicle specification and market. Please refer to the Specification Sheet for details or contact your local Land Rover Retailer for more information.

VERSATILITY

TRULY FLEXIBLE

Passengers can now take advantage of up to 1383 l of luggage space which - with a 40:20:40 rear bench as standard - makes every millimetre of Range Rover Evoque a versatile and highly functional vehicle. When the seats are fully down, it can readily accommodate several suitcases so when you're heading off for the perfect weekend getaway, you never have to compromise on space.

CABIN STOWAGE

Both driver and passenger can make use of Range Rover Evoque's many stowage options. With an impressive 26 l for small items, it can be adapted to suit all of your needs. The door bins have a total of 13.6 l of capacity to handily store water bottles, the cubby box some 4.5 l. There's even 1.7 l of additional room beneath the Touchscreen which is an ideal place to keep your smartphone.

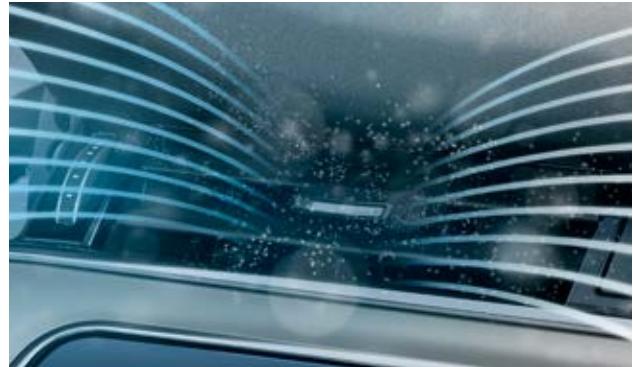

POWER SOCKETS

There are two USB ports and a 12-volt socket located inside the cubby box. For second row occupants, a 12-volt power socket is fitted to the rear centre console and there's a further 12-volt power socket located in the rear loadspace area. There are an additional two USB ports in the rear centre console meaning that multiple electronic devices can be charged or connected on the go.

CLICK AND GO INTEGRATED BASE UNIT

With the Click and Go integrated base unit, rear seat passengers will be able to use their tablet devices throughout any journey. With a mounting mechanism and rear USB charger, everyone can stay connected, everywhere in the vehicle.

CABIN AIR IONISATION

This nanoe™ technology enhances the well-being of both driver and passengers alike. It improves the air quality within the vehicle cabin by removing allergens, viruses, airborne bacteria and associated odours. It does so by ionising particles in the air, making them attract to and neutralise the air contaminants. It can be switched on or off.

NEW RANGE ROVER EVOQUE OFFERS
YOU GREAT OPTIONS AND FLEXIBILITY
TO PERSONALISE YOUR VEHICLE.

The following pages take you through a logical series of steps to make your vehicle a true expression of your individuality. You have a number of choices: from selecting your engine and model to exterior and interior colours, wheels, finishes and those detailed touches that define your character.

You can start with our online configurator at landrover.in

50-53

1

**STEP 1
CHOOSE YOUR MODEL**

If you would like Land Rover designers to choose your Range Rover Evoque features for you, turn to page 50 to see our First Edition.

If you would like to specify your own vehicle, turn to page 56 where you can compare the standard features across Range Rover Evoque and Range Rover Evoque R-Dynamic.

54-55

2

**STEP 2
CHOOSE YOUR ENGINE**

You can select from a choice of 2.0 l diesel or petrol engines.

56-57

3

STEP 3 CHOOSE YOUR SPECIFICATION PACK

You can individualise your Range Rover Evoque even further from a choice of superbly designed and engineered premium specification packs.

58-61

4

STEP 4 CHOOSE YOUR EXTERIOR

There's a range of exterior options to select from, including roof styles and paint colours. Both enable you to truly express yourself.

62-63

5

STEP 5 CHOOSE YOUR INTERIOR

Now you have chosen your model, you can select the perfect combination of interior colours.

64-67

6

STEP 6 CHOOSE YOUR LAND ROVER GEAR

A range of accessories which your Retailer can fit is also available.

1

CHOOSE YOUR MODEL

- Perforated leather steering wheel with Atlas bezel
- Keyless Entry
- ClearSight interior rear view mirror

- Solar attenuating windscreen
- Chrome treadplates with R-Dynamic branding
- Bright metal pedals
- Evoque and R-Dynamic badge.

2

CHOOSE YOUR ENGINE

WHICH ENGINE IS RIGHT FOR YOU?

Petrol and diesel engines offer different strengths to suit different customer use cases.

Diesel engines offer better fuel economy over longer distances and produce more torque, which makes them the ideal choice for longer journeys, motorway cruising, towing or off-roading. Our new diesels feature such advanced technologies that they are now as clean as a petrol-driven car, but also emit less CO₂.

Petrol engines are typically more powerful and produce higher revving, which can provide a more engaging and sporting driving experience. They are more refined and are better suited to shorter, stop-start journeys.

Configure your Range Rover Evoque at landrover.in

DIESEL ENGINE

D180

All Wheel Drive Automatic

The Ingenium 2.0 l 4-cylinder 132 kW Turbocharged Diesel engine produces 430 Nm of torque and is optimised to deliver improved drivability and refinement.

- The high-pressure common rail direct fuel injection, exhaust variable cam timing and a high-efficiency water-cooled intercooler work in combination for a clean, efficient combustion.
- 430 Nm of torque is delivered over a wide engine speed range from 1 750-2 500 r/min, delivering accessible performance and strong acceleration.
- The engine features a variable geometry turbocharger that adapts to the changing flow of exhaust gases for high torque throughout the rev range and responsiveness that is uniform, progressive and reduces lag.

PETROL ENGINE

P250

All Wheel Drive Automatic

The Ingenium 2.0 l 4-cylinder 183 kW Turbocharged Petrol engine produces 365 Nm of torque and delivers impressive fuel economy and drivability.

- The intelligent Continuously Variable Valve Lift (CVVL) system varies the extent to which inlet valves are opened, reducing engine pumping losses. This lets the engine 'breathe' with maximum efficiency, optimising power and torque.
- CVVL works in combination with dual independent variable cam timing for ultimate operating flexibility, resulting in excellent power and fuel economy across the rev range.
- For excellent acceleration and effortless overtaking, maximum torque is available - between 1 500-4 500 r/min.
- The twin-scroll turbocharger is fed by an integrated exhaust manifold which increases the transfer of energy to the turbine - significantly reducing turbo lag and improving engine response.

6

CHOOSE YOUR LAND ROVER GEAR

A range of stylish, tough and practical accessories are available, bringing you the opportunity to personalise your Range Rover Evoque even further. These accessories can be purchased through your local Land Rover Retailer and added at any stage during the vehicle's life - not just when it's new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

For more information and a complete list of options and Land Rover Gear, configure your Range Rover Evoque at landrover.in and gear.landrover.com/in/en/

TOURING

Cross Bars (without roof rails)

Aerodynamic profile minimises drag and wind noise. The incremental height when fitted is 93 mm.

Luggage Roof Box^{1,2}

Power-click quick mounting system with integrated torque indicator for easy and secure fixation with a single-handed grip. Opens from both sides with handles on the lid and inside the box, for convenient fitting, loading and unloading. Integrated base mat for extra secure loading. Load capacity eight skis/five-six snowboards, max length of skis 205 cm (80.7). Volume 410 l. Maximum payload 75 kg³.

Tow Bar Mounted Bike Carrier - 3 Bike

The tow bar mounted bike carrier features a one hand, quick attach/release tow bar coupling mechanism and can be tilted away from the vehicle, by use of a foot pedal, to allow easy access into the rear tailgate. The tailgate can be opened with carrier in deployed/folded position. Manufactured from aluminium and other lightweight materials, the bike carrier also features a rear lighting and licence plate mount and it is lockable for security. The carrier has a folding/sliding mechanism to allow ease of stowage when not in use. A holder and ratchet function ensure bicycles are safely secured. Maximum load capacity 51 kg.

Seatback Stowage - Premium Leather

Manufactured from the same Premium leather offered on the vehicle, complemented with soft-touch interior lining and magnetic button clasps. Provides a convenient stowage solution for the rear of the front seats with multiple compartments for stowing small items.

Click and Go - Range

The Click and Go range is a multi-purpose seat-back system for second row passengers. The versatile Click and Go Base fixes between the headrest mountings and further attachments can be added to hold tablets, bags and shirts or jackets. Each attachment is sold separately. The base can be easily removed when not in use.

Click and Go System - including Base and Click and Hang

Tow Bar Mounted Bike Carrier - 3 Bike

¹Cross Bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted. ²Not available with Sliding panoramic roof.

³Maximum payload equals the load capacity of the roof mounted accessory.

DESIGN

Stainless Steel Undershield - Front*

The off-road inspired undershield, manufactured from stainless steel, features a premium Bright Polished finish for the front of the vehicle.

Centre Cap - Silver finish

Enhances and adds style to alloy wheels. Features Land Rover logo.

Loadspace Treadplate Finisher - Illuminated

Manufactured from stainless steel with a Bright finish, the trunk finisher provides protection to the loadspace trim when loading or unloading and provides a premium finish to the loadspace with subtle illumination.

Side Vents - Narvik Black

Narvik Black side vents provide a subtle exterior design enhancement.

Mirror Covers - Carbon Fibre

Stunning high-grade Carbon Fibre mirror covers, with a High Gloss finish, provide a performance-inspired premium styling update.

Sport Pedal Covers

Stainless steel Bright finish sport pedal covers are easy to fit and feature hidden fixings for a clean finish.

Gearshift Paddles - Aluminium

Complete the look and feel of your steering wheel with premium aluminium paddles. Gearshift paddles are machine polished, anodised and hand brushed to provide exceptional wear resistance with a premium finish.

Sill Treadplates - Illuminated, Front

Driver and passenger's front door sill treadplates add style to the vehicle and protect the sill trim from scuffs and scrapes. Co-ordinates with your vehicle's interior and subtly illuminates Range Rover script when the front doors are open.

Stainless Steel Undershield - Front

PET PRODUCTS

Loadspace Liner Tray and Luggage Divider - Full Height

Combines the loadspace rubber mat with the full height partition, to protect both your vehicle and your pet. The rubber mat is waterproof, protecting the vehicle's loadspace floor carpet. The full height partition prevents access to the passenger compartment, while safely containing and protecting your pet.

Spill Resistant Pet Bowl

Provides a convenient solution for use in transit or outside of the vehicle. With an anti-slip rubber base and a retention strap for securing to the loadspace 'D' loop, the spill resistant bowl has a capacity of 350 ml.

Portable Rinse System

Designed to be used outside the vehicle, the portable rinse system provides a convenient solution for washing pets before loading or rinsing other equipment from bikes to wetsuits. Depending on the setting selected, this portable rinse system will deliver a minimum of two minutes of continuous water flow through a shower hose style attachment. Without the need for batteries or external power, the system utilises pressure captured when filling from a tap, and an integrated hand pump allows the user to pressurise if filling the water tank away from home. Featuring a Land Rover branded cover and handle, with an additional stowage bag it can be secured to the loadspace 'D' loops during transit.

Foldable Pet Carrier

The foldable pet carrier provides a safe, comfortable environment for the transportation of pets. Manufactured from a durable 600D nylon the foldable pet carrier has a lightweight metal frame and includes a quilted fabric cushion, net windows and a spring loaded locking mechanism which snaps into place when required. Windsor leather carry handles and corner pieces provide a premium finish, with a side pocket providing a convenient stowage option for other pet accessories or small items.

Quilted loadspace liner

This tailored liner protects all the carpeted areas of the loadspace area including the floor, second row seat backs and side walls. Manufactured from a soft quilted fabric with an integral rubber mat and detachable bumper protector it is easy to wipe clean, making it ideal for owners who regularly carry pets in the loadspace of their vehicle.

Foldable Pet Carrier

*Not available on R-Dynamic vehicles.

iPhone and iPad® is a registered trademark of Apple Inc., registered in the US and other countries.

OUTDOOR

Electrically Deployable Tow Bar

The electrically deployable tow bar is stowed discreetly behind the rear bumper when not in use, providing a clean, attractive finish. It is designed to deploy or stow in 12 s and is operated via a switch in the rear loadspace or by the infotainment system in the cabin. Returns to original position if any obstructions are encountered during deploying/stowing. Includes integral 13 pin towing electrics (also hidden until deployed). Approved for up to 1 500 kg trailer load. Includes a unique trailer light test facility which allows the driver to be able to check without assistance if the trailer lights, including reverse and brake lights, are functioning correctly. The trailer light test is activated via either a switch in the loadspace or via the Touchscreen, depending on the vehicle's specification.

Mudflaps

- Front
- Rear

Mudflaps are a popular upgrade for reducing spray and ensuring paintwork is protected from debris and dirt. Designed to complement the vehicle's exterior styling.

Loadspace Protection Rubber Mat

Black, waterproof loadspace rubber mat with retaining lip. Offers protection of the loadspace floor.

Protective Rear Seat Cover

Protects both the rear seat bench and door linings from wet and dirt.

Rubber Floor Mats

Land Rover branded waterproof rubber mat, with retaining lip, helps to protect the rear loadspace carpet from general dirt. This waterproof mat extension covers the back of the rear seats when they are folded down.

Loadspace Retention Kit

The loadspace retention kit consists of a pack of attachments that fix into the loadspace rails via a quick lock/quick release system to help provide a comprehensive and flexible solution for retaining luggage and other items within the loadspace. The Attachment Pack includes a retractable strap with inertia reel and telescopic rod.

Electrically Deployable Tow Bar

LIFESTYLE

iPhone Connect and Charge Dock

The iPhone connect and charge dock has been designed to allow visibility of the phone whilst charging, utilising the cup holder space in the central console. When connected the iPhone media is accessible and has the ability to be controlled via the integrated infotainment/audio system. The 'cut-out' design of the holder is such that home button is also accessible for use when parked. The iPhone USB charger can be easily disconnected if the USB connection is required for other use.

Land Rover Branded Child Seat - ISOFIX Base

ISOFIX Base for use with the child seat - Group 0+ (birth - 13 kg) - infant carrier VPLRS0397.

Land Rover Branded Child Seat - Group 0+

For babies from birth - 13 kg (approximately birth - 12-15 months). Land Rover branded. Rearward facing on rear seat. Includes a wind/sun canopy and padded, machine washable cover. An easy, height adjustable headrest and a five-point harness with one-pull adjustment. Can be installed with the vehicle's three-point seat belt or the child seat ISOFIX base. Approved to European test standard ECE R44-04.

Rear Bumper Protection Cover

Provides protection for the rear bumper from scuffs and scratches and helps to prevent clothing from collecting dirt when loading and unloading.

Second Row Armrest Food Warmer/Chiller

Food and drinks chiller and warmer that acts as a rear centre armrest. With a leather-covered top, it is held in place by the centre seat belt and powered from the rear auxiliary socket. Ideal for long journeys with the family.

Windscreen Sun Shield

UV windscreen sun shield reflects the sun's rays and helps to keep the vehicle interior cool in hot weather.

Electric cool bag

This cool bag is thermostatically temperature controlled, is powered by the 12 volt auxiliary socket and has an easy to clean interior surface. Height 380 mm, length 380 mm, width 220 mm. Volume 14 l.

iPhone Connect and Charge Dock

THE WORLD OF LAND ROVER

Fuel tank capacity - useable	Large tank	67
Diesel Exhaust Fluid (DEF) - useable	Large tank	-
Selective Catalytic Reduction Filter/ Gasoline Particulate Filter (SCRF/GPF)	■	■
PERFORMANCE		
Time (s) for 0-100 km/h	9.3	7.5
Maximum speed km/h	205	230

TECHNICAL SPECIFICATION

	DIESEL D180	PETROL P250
BRAKES		
Front type	Single piston, sliding caliper. Lightweight discs	Opposed piston caliper. Lightweight discs
Front diameter (mm)	349	349
Rear type	Single piston, sliding caliper. Lightweight discs	Single piston, sliding caliper. Lightweight discs
Rear diameter (mm)	300	300
Park Brake diameter (mm)	300	300
WEIGHTS (kg)*		
Unladen weight*	from 1 915	from 1 929
Gross Vehicle Weight	2 450	2 430
Maximum mass on each axle (front)	1 320	1 340
Maximum mass on each axle (rear)	1 240	1 230
TOWING (kg)		
Unbraked trailer	750	750
Maximum towing	Up to 2 000	Up to 1 180
Maximum coupling point (nose weight)	100	100
Maximum vehicle and trailer combination	4 490	4 230
ROOF CARRYING (kg)		
Maximum roof load (including cross bars)	75	75

■ Standard – Not Available.

DIMENSIONS AND CAPABILITIES

Front wheel track
1 626 mm

Length behind
second row 798 mm

Loadspace
Width
1 301 mm

Overall length 4 371 mm

Headroom

Maximum front / rear headroom with standard roof 989 mm / 973 mm

Maximum front / rear headroom with panoramic roof 1 013 mm / 997 mm

Legroom

Maximum front legroom 1 016 mm
Maximum rear legroom 859 mm

Loadspace Capacity

Height 691 mm, Width 1 301 mm
Loadspace width between arches 1 053 mm

Maximum loadspace volume behind first row
Dry* 1 156 l, Wet** 1 383 l

Maximum loadspace volume behind second row
Dry* 472 l, Wet** 591 l

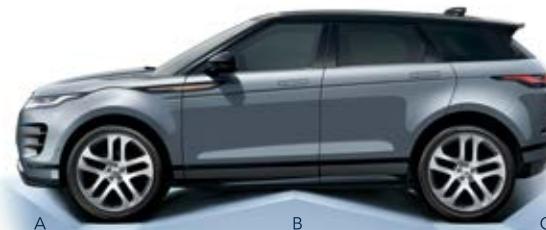

Width 1 996 mm mirrors folded
Width 2 100 mm mirrors out

Height
1 649 mm

Rear wheel track
1 632 mm

A
Approach Angle
21.8

B
Ramp Angle
20.3

C
Departure Angle
30

Turning Circle

Kerb-to-kerb 11.6 m
Wall-to-wall 11.9 m
Turns lock-to-lock 2.3

Wading Depth

Maximum wading depth 600 mm

*Dry: Volume as measured with VDA-compliant solid blocks (200 mm x 50 mm x 100 mm). **Wet: Volume as measured by simulating the loadspace filled with liquid.
